U r a ★ ★

Dear Mr. Milken,

Thank you coming to our classroom.
Thank you for the pencil bag and the pencil you gave me. Thank you for suprising us with your visit to our class. I hope I can see you next year. My brother wants to have Mike's Math Club come to his class. You are really good in math. I was so supriised when you walked into my classroom. Mike's Math Club is like family. Since I've been in Mike's Math Club, I am great at math. I have a better time doing math. I don't say "I dont want to do math." Thank you for helping me with that. I really appreciate it. I hope I can have

Mike Rules !

Mike's Math Club next year when I am in 4th grade. Have a great summer, Michael! You know how to do mental math really fast. Can you beat The Wiz in "Twenty-One?" Get The Wiz stuck on 18. He can never win if he is on eighteen unless you mess up. Try not to mess up. When The Wiz says eighteen you say 19, 20, and 21. Good Luck.

Your Friend.
Jazmine
Amestoy, 3rd grade.
